

All about a parent

Instruction:

You're going to create a presentation about an adult member of your family to learn more about his/her youth and what life looks like at that time. You can choose for example your mother or your father, your uncle or your aunt, or one of your grand-parents. Try if possible to choose someone who speaks French in your family (otherwise it's ok too).

You will decide on your own what kind of presentation you want to make: either on the iPad with a program of your choice (Word, Keynote, ComicLife or Imovie), or by creating for example a poster (with texts printed or written by hand).

Your presentation should have 5 parts :

- introduction (name, age, work, etc.)
- childhood (home, family, activities, etc.)
- life at that time (fashion, music, events, etc.)
- school (class size, teacher, learned subjects, etc.)
- the first steps as an adult (study, work, car, etc.)

Steps:

1. Discussion

Talk to your parent for information about his life.

Use the questionnaire to write down the things you learn.

If your parent is not with you, you can have an interview by phone or video-conference.

Note that it might take more than one time to talk about everything.

2. Preparation

For each part of your presentation, prepare a text to talk about what you have learned.

(Use the questionnaire and make sentences.)

3. Creation

Create your presentation, without forgetting to add images. Ask your parent for photos, or find photos on the Internet.

4. Publication

Check your project and improve it if necessary

Then publish it on Freshgrade.
