

no 9 > Nombre de cubes de Sandra, c

$$\bullet 28 + c = 72$$

$$\bullet c + 28 = 72$$

$$\bullet 72 - c = 28$$

$$\bullet 72 - 28 = c$$

$$\bullet \begin{array}{r} \cancel{28} + c = 72 \\ - \cancel{28} \quad - 28 \end{array}$$

$$c = 44 \text{ cubes}$$

$$\bullet \begin{array}{r} c + \cancel{28} = 72 \\ - \cancel{28} \quad - 28 \end{array}$$

$$c = 44 \text{ cubes}$$

$$\bullet \begin{array}{r} \cancel{72} - c = 28 \\ - \cancel{72} \quad - 72 \end{array}$$

$$\frac{-c}{-1} = \frac{-44}{-1}$$

$$c = 44 \text{ cubes}$$

$$\bullet 72 - 28 = c$$

$$44 = c$$
